SUMMARY

Front End Engineer with user experience priority. I like to help users achieve results.

PROFESSIONAL EXPERIENCE

JUNE 2018 – AUG 2018

Front End Web Developer, Submittable, Missoula, MT (F/T technical fellowship)

- Contributed to major code migration from jQuery to React by delivering modular React form components (Redux, JavaScript, ES6, CSS, Sass)
- Delivered unit tests (Jest snapshot) and provided code reviews

MAY 2017 – JULY 2017

Front End Web Developer, Mozilla, San Francisco, CA (F/T remote internship)

- Built an image editor (HTML Canvas) with features like drawing rectangles, redaction
- Contributed bug fixes and refactored legacy code (JavaScript, Python, Flask, HTML, CSS)

MAY 2016 – MAR 2018

Code Reviewer, Udacity, Mountain View, CA (P/T remote contract)

- Helped students succeed in Front End Web Development certificate and React certificate programs by providing detailed code reviews, debugging tips, and best practices pointers
- Topics covered: responsive design, page layout, object-oriented programming, DOM updates (JavaScript), unit testing (Jasmine), React, Redux

AUG 2016 – JAN 2017

Front End Web Developer, Udacity Blitz, Mountain View, CA (F/T remote contract)

- Migrated a student search tool from Angular to React in a nimble 2-person dev team (saving time and money from previous contractors; used Redux, CSS/Bootstrap, consumed GraphQL API)
- Improved the location-based search by implementing Google Place API (autosuggest list) and triggered a Back-End data cleanup and data intake standard using Google Place API
